COVID AND ZOOM NOTICE:

R. Christie read the following:

This meeting is being held in an emergency status due to the ongoing COVID-19 pandemic. Under emergency circumstances, the meeting is being held via a videoconference exchange as well as in person. This will allow for the Committee to discuss and deliberate items contemporaneously and allow for public participation and engagement as permitted. All votes will be by roll call.

R. Christie made general announcements:

Welcome. I'm Rob Christie, Corresponding Secretary and Treasurer of the LCC, and acting Chair pro-tem. We are very glad to see you, in person or by Zoom connection.

Ground rules:

Minutes will be kept and published as per RTK. In the absence of a Clerk today, the meeting will be recorded by Zoom, Video and voice recorder. Follow us on our Town web page, our Facebook page, and by attending our meetings, which are now recorded for your later review.

This is a public meeting, all may attend. Only permitted speakers are: Commission members, those who have made an appointment to appear, and those recognized by the Chair. We will ask if there is anything from the public before we adjourn. You might make a note of your questions as we go along.

A little background:

Your LCC is here to serve the people/ taxpayers of Lancaster in connection with our Duties by law and agreement. Some of our Duties are assigned by the local Legislative Body (Town voters). We work locally, with other Town organizations, regionally and Statewide. Some of what we do involves permits.

You (voters) support us financially through an annual budget allocation. We also have a non-lapsing Conservation Fund that allows us to support one-off projects through tax money, grants and contributions.

Our April meeting (first after Town Meeting) typically includes many housekeeping items.

This evening we have two additional tasks: recommend candidates for appointment to Commission vacancies, and act on an unusual action request on a Wetlands Permit.

Your Commission is in an unusual circumstance as well. Due to unexpected turnover, we have three open slots on the Commission. In addition, I am the remaining elected Officer, and the only member who has served on the Commission for more than a month or two.

So part of this evening's meeting is handling annual housekeeping, part is reconstituting our membership, and part is bringing a new crew up to speed.

Discussion of how public may view prior minutes. March 8 minutes read aloud.

APPROVAL OF MINUTES

Moved by E. Livingstone, seconded by M. Hobbs to approve the minutes of the March 8, 2021 meeting.

Minutes signed by Christie and Livingstone.

PERMITS, APPLICATIONS AND DES MATTERS:

Christie presented background and timing of an "Eversource D142 Line Rebuild-Lancaster" action request from Stantec Engineers/Eversource. He said he was asked by them to state that the LCC would waive local permittee award of project Mitigation Funds, by April 16, 2021. He sought more information for the Commission.

As stated, the question before the LCC at this meeting was whether we would agree to sign off by next Thursday, giving up our right to receive about \$7700 dollars.

Christie told the meeting that he 1. Could not act without LCC approval, 2. LCC had been provided no written information and that 3. The sign-off request could not be accommodated within the requested time frame. He said that he had contacted the Town Manager and the Whitefield and Northumberland Conservation Commissions.

Christie also explained that the scope of the LCC's purview in this matter as being limited to wetlands matters, and that any discussion before this meeting would be so limited.

Appointments:

Linda Upham-Bornstein, Ph.D., re: "Eversource D142 Line Rebuild-Lancaster" permitting, requesting a delay in the decision process until such time as more information is provided regarding the process. She distributed a list of 12 Questions related to decision process, requesting written answers from Eversource to the questions, and expressed concern about the effects of the project on the fragile wetlands. Troy Merner stated that as State Representative, he had been notified last summer. Ben Oleson, Town Manager, stated that the Town received a letter from Eversource last December, stating that they were preparing a project. Oleson further stated that Eversource 'scheduled a

meeting several weeks ago, and that meeting took place on Tuesday, April 6. With Eversource, himself, and two Northumberland Town officials. Much discussion began. Christie intervened thrice to redirect the discussion to the specific question of delaying response on waiving Permittee Mitigation Funds.
