(Tax Map R02 Lot 068 (104 acres) Page Hill Road). **Review Application for Completeness. Schedule Public Hearing.**

Chairman Nadeau stated this meeting was to review the application for completeness and not a public hearing where the public has a right to speak. He then stated he felt the Board should go through the submission requirements to identify if everything required was submitted. Benjamin Gaetjens-Oleson explained that driveway permits were either approved for some of the proposed lots or they were conditionally approved pending approval of the subdivision. Mark M. E. Frank asked if there were any waterbodies on the property. Surveyor Gardner Kellogg stated there were no year-round flowing water. Mr. Kellogg also explained there is a

maintenance agreement prepared concerning the proposed road. A copy of that plan was in the packet of information. Mr. Frank asked if there was a study on the impact of this subdivision on the school system. Chairman Nadeau stated the proposal was not considered large enough to trigger a study of that type of impact. Don Doolan asked if any of the lots could connect to the Town's public water system. Mr. Gaetjens-Oleson stated public water did not extend that far on Page Hill and any expansion of the system would require a study which may need to be funded by the homeowners of the subdivision. Mr. Doolan also asked why a hammerhead was chosen for the ending of the proposed road. Mr. Gaetjens-Oleson answered the Fire Department preferred that design as it made it easier to maneuver.

With no further discussion a motion was called for to accept the Application as Complete.

He explained it would be a small operation and would be practically unnoticeable to anyone around his land. He explained the noise would be within required standards and definitely less than his current operation. There would be no smell emanating from the plant and the plant's construction and operations would be regulated by the State. Mr. Bouthillier feels the plant would be a benefit to the area for the State and Town projects as well as local asphalt companies. He explained he wanted to get the Board's input prior to developing formal plans.
