Appointment(s):

Julie Renaud Evans – Northern Forest Center.

Mr. Gaetjens-Oleson introduced Julie Renaud-Evans of the Northern Forest Center (NFC) to present on the community revitalization work they have been doing in Lancaster. Ms. Renaud-Evans presented a PowerPoint slide show and began by explaining NFC was not only working in Lancaster but also Millinocket and Bethel, Maine areas. In Lancaster they have gathered individuals to serve as an Advisory Team and have assisted in various projects including two area brochures that highlight the region's outdoor recreational opportunities. They have also helped the Town create an energy program and are currently working in redeveloping the Parker J. Noyes building.

For the Noyes building development they are seeking grants and private investments.

Some grants they are seeking are through LCHIP and other historic preservation opportunities. She explained that some of these grants will require statements of support from the Town. She stated Mr. Gaetjens-Oleson has been a great help with the work they are doing in Town. She also stated the building would house the Root Seller on the first floor and have 3 apartments each on the second and third floors. The apartments would be market rate rentals and not low-income/subsidized housing. There was concern expressed about parking for the tenants. Ms. Renaud-Evans stated they are addressing this. Mr. Gaetjens-Oleson explained there will be ample parking in the municipal lots and the Town is developing plans to stagger the nights of no parking in them during the winter parking ban so some overnight parking will be allowed.

The Board thanked Ms. Evans for coming to the meeting with the presentation.
